

Newsletter DWIH New York

July 2023

Dear reader,

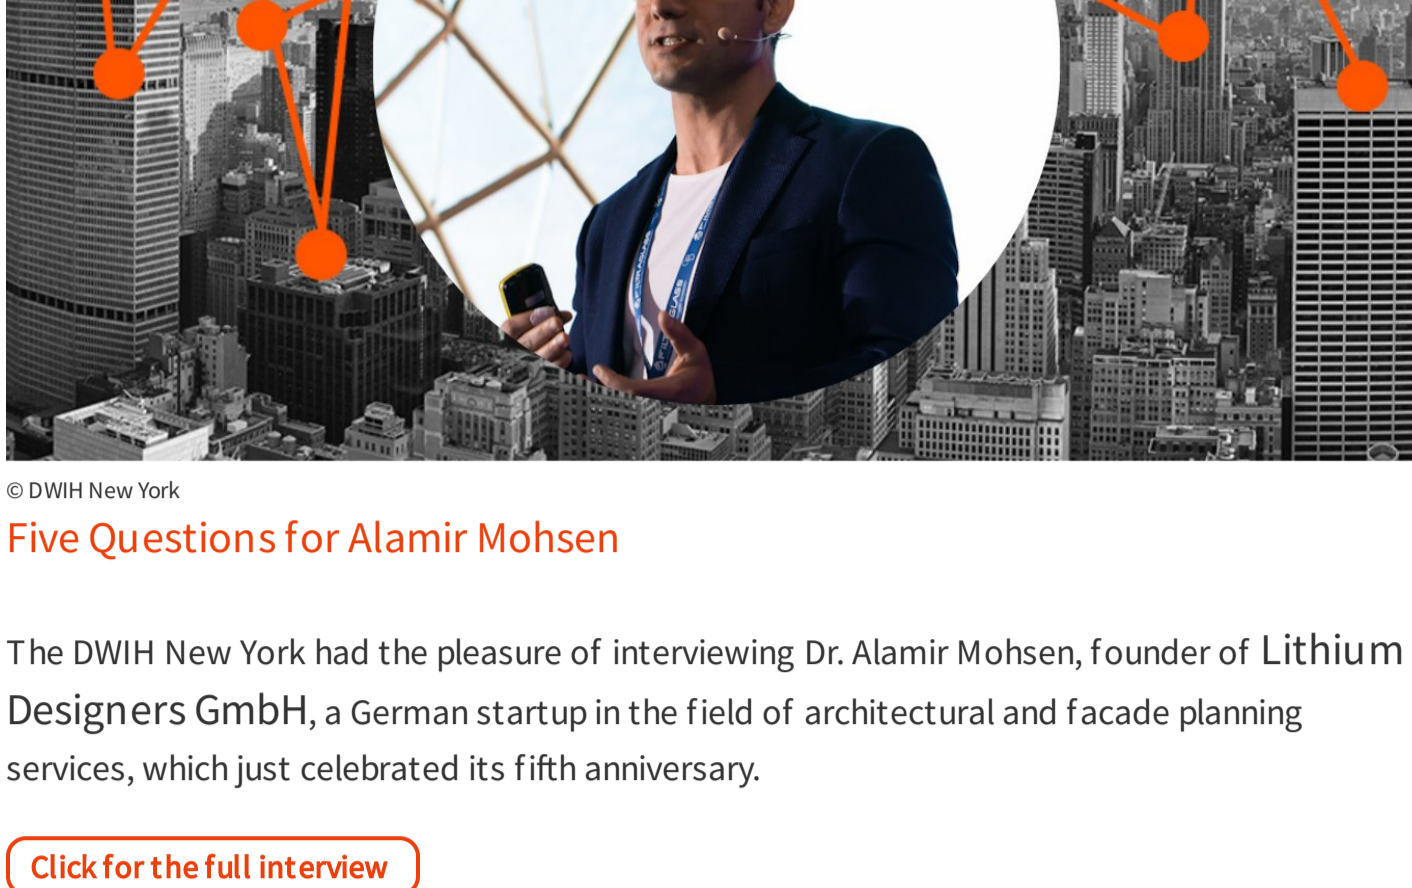

As we are preparing the next edition (December 2023) of the STEP USA University Program with the German American Chamber of Commerce, we would like to introduce another successful startup which participated in 2022: We are excited about the interview with Dr. Alamir Mohsen, founder of Lithium Designers GmbH.

This newsletter also features a list of job opportunities in the "German- American sphere". Please feel free to apply if you would like a change in your career!

As July will be calmer in terms of events, we are using the time to prepare our great FUTURE FORUM (October 20, 2023) and other events in the fall.

With kind regards
The DWIH New York Team
