

Newsletter DWIH New York

November 2023

Dear reader,

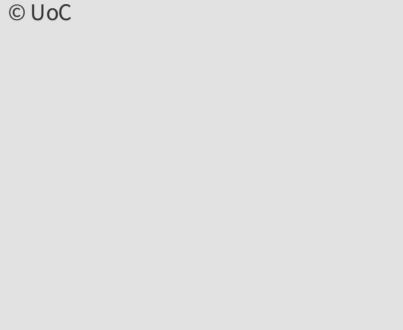

The FUTURE FORUM was a huge success, thanks to everyone involved! Check out the [photos on our website](#).

But 2023 is not over yet: The next two months are filled with more exciting projects and events, such as two events in New York City and Washington, DC, about neuromechanics, co-organized by the University of Cologne New York Office and many great partners.

With kind regards

The DWIH New York Team

EVENT HIGHLIGHT

WHAT'S NEW?

Our Past Events

Here is what you missed - looking back at some of our recent events:

- September 28: [Symposium Critical Stances Towards AI](#)
- October 5: [HU Berlin Delegation Visit to New York](#)
- October 10: [Practicing Transatlantic Science and Knowledge Diplomacy](#) (incl. event recording)
- October 20: [DWIH FUTURE FORUM](#) (incl. photo albums)
- October 27-29: [DWIH Panel "From Pixels to Progress" at GAC Harvard 2023](#)

OUR UPCOMING EVENTS

From Animals to Robots: How Transatlantic Neuroscience Advances Engineering

Nov 7, 2023, in-person (NY)

Fascination Neuromechanics: Advancing Robotics Through Innovative Transatlantic Research Collaborations

Nov 8, 2023, in-person (DC)

How Innovation Supports Resilience in Higher Ed

Nov 8, 2023, online

Neuroscience in Germany: Networking Reception

Nov 14, 2023, in-person

STEP USA University Program

Dec 4-6, 2023, in-person

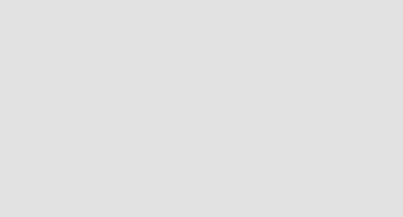

Dec 6: Pitch Night

Risk Tipping Points - Where Hope Lies

Dec 19, 2023, in-person

NEWS FROM OUR SUPPORTERS

New Podcast on Explainable Artificial Intelligence

AI is now encountered by people in almost all areas of life. AI is supposed to support, advise and provide objective and optimized solutions for difficult decision-making. But how can people understand why and how an AI has arrived at its respective result? In the Collaborative Research Centre/Transregional Research Centre (SFB/TRR) 318 of Bielefeld and Paderborn Universities, an interdisciplinary research team is dealing with this problem.

Raw Material Requirements for Reducing Global Poverty Calculated for the First Time

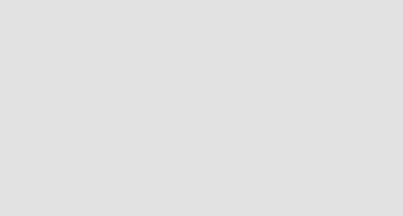

Researchers at the University of Freiburg quantify the amount of material needed to enable people to live without poverty.

Nutrition and mobility patterns have major impact on resource demand. Many people could be lifted out of poverty with just a fraction of the raw material consumption of wealthy countries.

International Partner Universities Network Globally in Hamburg

Which innovative research and teaching projects provide the opportunity for international collaboration and exchange while also being flexible enough to fit into the universities' existing curricula? Are multilateral networks the future of academic internationalization? These and many other questions were discussed by more than 70 participants at the 2023 Hamburg Networking Conference at Universität Hamburg.
